**Lieu-dit Schaeferthal
68570 Soultzmatt**

+ Description

The place Schaeferthal was first mentioned in the year 1339. The early chapel was probably built in the 14th century. The oldest part of the present church is dated from the 16th century. Some renovation works were undertaken in 1594 and 1745 and some rocks from the Schwartzenthann convent were used for the chapel. The house close to the chapel was built at the end of the 16th century, but its use is unsure because this house is too large to put up a hermit.
