+ Description

"Departing from Guebwiller, cycle for 8km, which is a good warm-up before arriving at the foot of the demanding ascent of la Glashütte.

Once you have passed Rimbach-Zell, the serious work can begin. For more than 1km, you will face slopes of more than 10% incline.

A light sloping ledge of less than 1km will give you a chance to catch your breath, before taking on the final part of the route (from Rimbach-prèsGuebwiller). 2.3km with an incline of over 10%, often reaching surpassing 15%.

At the top, have a break at the Glashütte "ferme auberge" (farm restaurant)."
