**45 rue de la république
68500 Guebwiller**

+ Description

From Guebwiller, cycle for 9km to reach the foot of the Remspach slope. From Linthal, cycle for 5km at an 8% incline to reach the summit. The foothills are steep, with a few hairpin bends. The rest of the slope is demanding, with the incline ranging between 7% and 15%. At the top, there is a wonderful view over Le Grand Ballon.

The rest of the route is downhill until you reach Guebwiller. A good way of recovering from the ascent.
