68700 Wattwiller**

+ Description

Leaving from Wattwiller, discover this charming village famous for its mineral water.

And follow in the footsteps of the memory and the French lines of 1914-1918: a trail dotted with relics and monuments of the Great War and passing the famous Siehlabeche waterfall.

A beautiful woodland walk to another of the region's waterfalls.

Its strong points: the relics along the route and the restaurant facilities.
