+ Description

Wherever you are, you will never be far from a viewpoint as dazzling as it is soothing, one of those places where, contemplating, we tell ourselves that life is beautiful by offering us authentic and delicious moments of daydreaming, discovery and well-being...

These places can be grandiose, sublime, unmistakable, secret, far from the beaten track, unexpected or unusual but always seductive.

Don't forget your camera, it's an opportunity to immortalize this precious moment.
