+ Description

In Alsace, we like to finish our meals on a sweet note, so do as we do, be greedy!

This is the opportunity to discover a speciality of Ebersmunster, the Mandelbari! You have certainly never eaten it before but you will not be able to do without it.

The Mandelbari - Mont aux Amandes - is a light pastry made of shortcrust pastry in the shape of rings, smaller and smaller and stacked on top of each other, covered with meringue flaked almonds.

Traditionally served at Christmas, this speciality now accompanies all the tables in the region at coffee time.
