## + Description

This walk winds its way through a haven of peace and quiet to one of the Bruche Valley's legendary peaks. Surrounded by green and leafy landscapes, the Climont is the region's water tower. Three rivers spring up alongside it: the Bruche, the Giessen and the Fave. The source of the Bruche is at an altitude of 690m. This site is home to a headstone sculpted by Raymond Keller using a sandstone block from the Champenay quarry. The Bruche then runs through a vast sun-soaked basin called the Hang Clearing.
