Château de Kintzheim
67600 Kintzheim

+ Description

Experience much more than just a visit: an exceptional immersion at the heart of the Volerie des Aigles.

For a day, step into the shoes of a keeper and discover what goes on behind the scenes at Kintzheim Castle alongside enthusiasts. In a very small group, enjoy a special opportunity to get up close to birds of prey like never before: majestic eagles, fascinating owls, impressive vultures, elegant kites and Harris's hawks.

Observe, prepare, handle... and above all, help these extraordinary birds take flight. Every moment brings you a little closer to them, for a rare, intimate and unforgettable experience.

The day begins with a warm welcome and an exclusive tour of the grounds, reserved just for you in the morning. You will then take part in releasing several species into the air and enjoy a unique walk accompanied by a Harris's hawk.

After a lunch break, prolong the excitement with the show "Between Sky and Earth", followed by entertainment and a self-guided tour of the château.

An immersive experience, rich in sensations and emotions, to enjoy yourself or to give as a gift.
