67120 Dorlisheim**

+ Description

Discover Dorlisheim Castle through two exhibitions:

Scale-model steam engines:

In the cellar of Dorlisheim Castle, you'll find steam engines... relics of an industrial revolution from a bygone era.

Steam enabled industries to operate at a faster pace and with greater efficiency. It revolutionized transportation, particularly with the invention of the steam train and the steamboat.

Patrick Grandjean offers a dynamic presentation centered on these steam engines.... in miniature, of course!

Children can take part in a highly educational quiz.

Don't hesitate to come and immerse yourself in the dawn of this era of technological and economic progress that has shaped our modern world.

Libre et l'Art – Metal Sculptures in the Château Park:

Christophe Welschinger will exhibit his metal sculptures in the Château's beautiful park.

Chris Art talks about his art, his passion, his works, his inspirations—here's what he has to say:

. "They speak to me,"

. "They move me,"

. "They charm me,"

. "They bring back the gentleness I need...."

Horaire(s) d'ouverture

19/09/2026

Saturday from 14:00 to 18:00

20/09/2026

Sunday from 10:00 to 17:00
