Carrières de Saint-Nabor
67560 Rosheim

+ Description

This Greenway is an 11-kilometre route at the foot of Mont Sainte-Odile, linking Rosheim to Saint-Nabor on the old railway line.

In addition to the landscapes you will discover on foot, by bike, scooter or stroller with magnificent views, you will walk in the middle of a mosaic of natural spaces. Real reservoirs of biodiversity!

The way also gives pride of place to contemporary art through the spectacular works imagined by the Norwegian architect Reiulf Ramstad.

This path is also the pleasure of hiking circuits and cycling loops that lead to major sites of the region.

Welcome to the most charming of Alsace's greenways!
