67130 Wisches

+ Description

An initiative of the Association "Les Géants du Nideck," two paths were built which display monumental contemporary art sculptures made by well-known artists for international sculpture symposiums.

Displayed in the open air, the sculptures can be admired by walkers in the majestic forests of Wisches and Lutzelhouse. The harmonious combination of sandstone and granite with deciduous and coniferous trees is most unusual.

- "In Situ" Path - Lutzelhouse 2007, Path with 8 sculptures, Sculptures 1 to 6 cover a distance of 10km. Sculptures 7 and 8 accessible from the Wisches military cemetery.

Trailhead: Parking des Musiciens or the Sperl forester's lodge
