## + Description

Obernai has been home to a weekly market on Thursday mornings since the 14th century. To complement this local commercial offer, the town of Obernai has set up a complementary market on Saturday mornings, dedicated to organic produce.

This weekly market enables those who can't make it to the Thursday morning market to benefit from a complementary offer, where over twenty local producers offer fresh, quality, seasonal produce.

In the event of an event being held in the Parking des Remparts and the Halle Gruber, the market will take place on the Rempart Foch.
