+ Description

The Christmas concert on December 26 is brought to you by the Rhinwagges Musical Ensemble, who will be playing works from the classical repertoire, traditional European tunes and Christmas standards.

The Ensemble musical d'RHINWAGGES is an atypical structure, both in terms of its origins and the way it operates.

Created in 1976 by a group of friends with no ties to the village, it is also a variable-geometry ensemble, operating all year round with around twenty musicians, and performing, preferably in concert, a popular repertoire ranging from Alsatian music to Czech and Moravian compositions.

The qualities of this group have been recognized through numerous awards, including a "Bretzel d'or", 2nd prize in the EOLIA international wind band competition, and invitations to countless international events and festivals throughout Europe and as far afield as Japan.
