+ Description

MARIONNETTES - BANDE-DESSINEE - From 6 years.

An amnesiac stranger arrives in a small kingdom isolated in the clouds: the stereotypical microcosm of this royalty is turned upside down, and the shortcomings of the established order come to light.

This creation is a joyful, multi-dimensional and multi-disciplinary adaptation of the comic strip "Politique étrangère" by Trondheim and Gerner. This zany fable in 100 strips of 3 frames, with its minimalist aesthetic and absurdist humor, takes a sharp, offbeat look at universal issues such as power, religion, social status, science and fear of the other.

SATURDAY WITH THE FAMILY: 1 show for the whole family, followed by L'APERO DES MINOTS, with complimentary aperitif!

Horaire(s) d'ouverture
