

MICRO-FOLIE OBERNAI

Obernai

1 rue de la Léonardsau
67210 Obernai

+ Description

Conceived by the Ministry of Culture and coordinated by La Villette, Micro-Folie is an innovative cultural concept that reinvents the encounter with art, heritage and creativity. It is based on a digital museum providing access to the treasures of major regional, national and international institutions. The town of Obernai has chosen to join this initiative and install a Micro-Folie on the second floor of the Château de la Léonardsau. A true bridge between cultural heritage and emerging technologies, the digital gallery allows visitors to immerse themselves in masterpieces from around the world. A large screen and interactive tablets offer a user-friendly and collective discovery experience.
