+ Description

Open to the public all year round, the park and gardens offer a privileged setting in which to explore the estate and enjoy the peaceful surroundings. Between the car park and the castle, three information panels line the route, inviting visitors to delve into the history of the site and its successive owners. A fourth information panel, dedicated to the estate map, guides walkers as they explore. Close to the castle entrance and the restored fountain, a digital touchscreen table enhances the visit. It offers an interactive immersion into the castle's architecture: its construction, its evolution and the rare decorative elements that Baron de Dietrich patiently collected, integrated into the façades and, in some cases, recently restored.
