

MICRO-FOLIE : COLLECTION MEXICO

Obernai

**1 rue de la Léonardsau
67210 Obernai**

+ Description

Produced in partnership with the Museum of Modern Art and the Museum of Anthropology in Mexico City, the Mexico Collection celebrates the richness of Mexican heritage, from the great pre-Columbian civilisations to the major figures of modern art.

From Mayan and Teotihuacan artefacts to iconic works by Frida Kahlo and David Alfaro Siqueiros, this collection reveals a culture deeply marked by memory, identity and artistic commitment. It creates a dialogue between ancestral heritage and contemporary creation.

Projected in the heart of the digital gallery on the second floor of the château, it allows visitors to settle in and discover, at their own pace, this vibrant immersion in the history and artistic soul of Mexico.
