## + Description

The Centre-Val de Loire Collection offers visitors the chance to discover eight exceptional châteaux and estates, most of which are listed as UNESCO World Heritage Sites.

Combining architectural history, major figures, pictorial masterpieces, religious heritage and contemporary creation, this selection brings centuries and disciplines into dialogue. It also reveals the richness of the performing arts and the importance given to biodiversity and landscapes.

Projected in the heart of the digital gallery on the second floor of the château, it invites visitors to journey through the French art of living.
