+ Description

The Pisteurs d'Etoiles Festival is back for its 28th edition!

For 3 days in various venues in Obernai, discover over a dozen circus shows in the public space and under the big top (located in the Parking des Remparts)!

With a majority of free shows and only 2 paying shows, come and discover or re-discover contemporary circus creation, under the Obernai sun, with proposals for the whole family.

The Pique-Nique Enjonglé will also be making a comeback: Thursday, May 1, from midday onwards, bring your blanket and your meal, settle down on the Pelouse des Remparts and let the members of the Pyrocircus association introduce you to juggling!

Finally, discover the new creation of the Rasposo company, HOURVARI, under their big top in the Parking des Remparts. A great circus experience, with crazy performances, magnificent images and stunning aesthetics. Tickets are already available!

The full program will soon be available on our website: www.pisteursdetoiles.com

Horaire(s) d'ouverture
