The White Lake is a high altitude lake (1055 meters) surrounded by fir trees with a surface of 29 hectares and a depth of 72 meters.

It takes its name from the color of the crystalline sand that covers the bottom of the lake. Dominated by the Hans Rock, which offers a gorgeous view in summer, it is connected to the Black Lake which is 100 meters downstream.

A little higher up there is a winter sports station where you can go downhill skiing, cross-country skiing, snowshoeing and even sledging. During the summer season, you can go mountain biking or hiking with many trails marked out by the Club Vosgien. You can also enjoy activities for all the family: orienteering circuits, the Till et Froll fun trail, the Croque-Noix trail treasure hunt, the barefoot trail, the adventure park , paintball and the 4-season Tricky Track toboggan run.

An emblematic site in the Vosges mountains that is offering a wide range of activities throughout the four seasons of the year.
