+ Description

13e sens and the Nature & Vie association, Barr and surroundings, around the documentary LE CHANT DES FORÊTS by Vincent Munier.

After the screening, a discussion will be led by the Nature & Vie association.

After La Panthère des neiges, Vincent Munier invites us to the heart of the Vosges forests. This is where he learned everything he needed to know from his father Michel, a naturalist who spent his life hunting in the woods. Now it's time for them to pass on this knowledge to Vincent's son Simon. Three viewpoints, three generations, the same fascination for wildlife. With them, we discover deer, rare birds, foxes and lynxes... and occasionally, the flapping wings of a legendary animal: the capercaillie.
